

RESOLUTION no. 053, dated June 17, 2020

Defines the criteria and procedures for compensation of the owner of animals killed as a result of animal health actions in the state of Paraná

THE STATE SECRETARY FOR AGRICULTURE AND FOOD SUPPLY, by virtue of the power conferred upon him by Article 90, sole paragraph, item II of the Constitution of the State of Paraná, and by Article 4, item I of Law no. 19,848 enacted on May 3, 2019, and given the need to regulate criteria and procedures for the payment of compensation to the owners of animals that were killed as a result of the actions of the Official Animal Health Service of the State of Paraná with financial resources of the Health Guarantee Fund referred to in Law no. 17,025 enacted on December 19, 2011, and to what is outlined in Protocol no. 15,930,876-6,

RESOLVES:

Article 1. To establish the criteria and procedures for the payment of compensation using funds from the Health Guarantee Fund referred to in Law no. 17,025 enacted in 2011, to the owners of animals that were killed as a result of the actions of the official animal health service of the State of Paraná, including in health emergencies.

Paragraph 1. The owners of bovines or buffalo killed by decision of the Official Animal and Plant Health Service of the State of Paraná in compliance with the State Program for the Control and Eradication of Brucellosis and Animal Tuberculosis are not eligible to receive compensation from the Health Guarantee Fund.

Paragraph 2. A health emergency is an epidemiological situation that shows or indicates an imminent risk of introducing an exotic disease, which is absent from Brazil, or that implies an outbreak or epidemic risk of an existing disease.

Article 2. The Animal and Plant Health Agency of Paraná (Agência de Defesa Agropecuária do Paraná - ADAPAR) shall: I – declare by Ordinance the state of health emergency;

II - determine the limits of the outbreak area and specify, by species or animal disease, the animal and plant health measures, the stamping out methods and the disposition of the animals that are killed, and which are to be complied with by the owners;

III - confirm the receipt of goods and the provision of services related to stamping out via Appendix I;

IV - certify, jointly with the owner of the animals, their legal representative or agent, the weight or amount of animals via Appendices II, III, IV and V;

V - certify, via Appendix X, that the owner of the animals has complied with the measures to control and remediate the disease outbreak;

VI - assess the compensation to be paid to the owner of the animals killed via Appendices VI, VII, VIII and IX;

VII - certify to the Paraná State Department of Agriculture and Supply (SEAB) the legal conformity of the compensation processes, according to Appendix XIII;

VIII - provide timely and formal notification to SEAB and the Fund for Development of Agriculture and Livestock of the State of Paraná (FUNDEPEC/PR) of animal health actions that involve the use of the Health Guarantee Fund, allowing them to be monitored.

Article 3. It is the responsibility of the owner of the animals to carry out, at his own expense, the measures to control and remediate the disease outbreak on his farm, as laid down by ADAPAR, under penalty of administrative, civil and criminal liability.

Article 4. SEAB and ADAPAR will assign effective officials with technical qualifications compatible with the issuance of the following documents:

I - Document of Inspection and Monitoring of the Remediation of a Disease Outbreak, as per Appendix XI, regarding the actions to control and remediate the outbreak of animal disease;

II - Document of Completion and Fulfillment of Objectives and Document of Physical-Financial Compatibility, as per appendices XII and XIV, to be issued within a period not exceeding 30 (thirty) days from the issuance of the document referred to in item I of this article;

III - Report of Recommendations to improve the effectiveness of the actions to control and remediate outbreaks of animal diseases, and of the compensation processes, as per Appendix XV.

Article 5. The calculation of compensation to be paid to the owners of bovines and buffaloes that have been stamped out will take the following criteria into account:

I – for animals killed in facilities under sanitary and industrial inspection: the animal's live weight in 'arrobas' (one arroba equals 15kg), multiplied by the carcass yield of 50% (fifty percent) of the animal's live weight, multiplied by 70% (seventy per cent) of the sale price of fat cattle practiced on the market at the time of weighing, as informed by the Department of Rural Economy (DERAL), minus the amount the owner received from the slaughter facility;

II – for animals killed on the farm: the animal's live weight in arrobas, multiplied by the carcass yield of 50% (fifty percent) of the animal's live weight

and converted into arrobas, multiplied by the sale price of fat cattle practiced on the market at the time of weighing, as informed by DERAL.

Sole paragraph. The assessment shall not consider the sex, age, breed, registration, reproductive phase or another attribute of the stamped out animal.

Article 6. The calculation of compensation to be paid to the owners of sheep and goats stamped out will consider the following criteria:

I – for animals killed in facilities under sanitary and industrial inspection: the animal's live weight in kg (kilograms), multiplied by the carcass yield of 50% (fifty percent) of the animal's live weight, multiplied by the price per kg/live weight practiced on the market at the time of weighing, as informed by the Brazilian Agricultural Research Corporation (Embrapa), minus the amount the owner received from the slaughter facility;

II – for animals killed on the farm: the animal's live weight in kg (kilograms), the carcass yield of 50% (fifty percent) of the live weight multiplied by the price per kg/live weight practiced on the market at the time of weighing, as informed by Embrapa.

Sole paragraph. The assessment shall not consider the sex, age, breed, registration, reproductive phase or another attribute of the stamped out animal.

Article 7. The calculation of compensation to be paid to the owners of pigs stamped out will consider the total weight of the animals, multiplied by the price per kilogram of the live weight of meat-type pigs practiced on the market at the time of weighing, as informed by DERAL, multiplied by an index in accordance with the reproductive phase.

Sole paragraph. The payment of compensation to the owner of pigs depends on the presentation of evidence with the documents outlined in this Resolution, and on proof of compliance with biosecurity measures at the time of the health event, according to ADAPAR Ordinance no. 265 enacted on September 17, 2018.

Article 8. The calculation of compensation to the owners of poultry stamped out will consider the category of production, the stage of production, the age in weeks defined by an index multiplied by the number of animals killed, and by the value of the Fiscal Standard Unit of the State of Paraná (UPF/PR) of the month of the slaughter of animals.

Sole paragraph. The payment of compensation to the owner of poultry depends on the presentation of evidence by means of the documents outlined in this Resolution, and on a valid Certificate of Registration, according to ADAPAR Ordinance no. 290 enacted on November 9, 2017.

Article 9. Compensation will be assessed in administrative proceedings instituted by the application of the owner of the animals killed, their legal representative or agent, addressed to the Director-President of ADAPAR and in accordance with Appendix XVI, and submitted to any of the ADAPAR Units, provided they are accompanied by the following documents, to be prepared with no erasures, alterations or amendments:

I – Document of Inspection and Monitoring of the Remediation of a Disease Outbreak - Appendix XI, regarding the completion of the actions to control and remediate the outbreak, signed by officials assigned by SEAB and ADAPAR;

II – Document to Assess the Weight and Quantity of the Animals - Appendices II, III, IV and V;

III – Document on the Compliance with the Criteria and Conditions – Appendix X;

IV – a valid Certificate of Good Standing from the State Department of Taxation and Finance, in the name of the owner of the animals.

Paragraph 1. The order of preference for paying compensation is defined by the date and time of the application protocol submitted to ADAPAR.

Paragraph 2. Compensation received from the Health Guarantee Fund will result in the owner's waiver of receiving compensation of the same nature from other official agencies.

Paragraph 3. The deadline to file the application is 60 (sixty) days from the acknowledgment by the interested party of the Document on the Compliance with the Criteria and Conditions - Appendix X.

Paragraph 4. An official assigned by the Director-President of ADAPAR will calculate the compensation.

Article 10. The Director-President of ADAPAR is responsible for authorizing the payment of compensation after the analysis and approval of the administrative proceedings conducted by the Director of Animal and Plant Health.

Paragraph 1. If the authorization is granted, the administrative proceedings should be sent to FUNDEPEC/PR within a period no longer than 15 (fifteen) business days, for the compensation to be paid.

Paragraph 2. FUNDEPEC/PR will pay the owner by direct deposit in a checking account or by a check payable to the owner. Payments to third parties are not accepted.

Article 11. An appeal may be filed against the decision of the Director-President of ADAPAR. The appeal should be addressed to the State Secretary of Agriculture and Supply, and brought within 15 (fifteen) days from the acknowledgment by the owner.

Article 12. FUNDEPEC/PR shall render account of the use of the resources, every year, to the State Council on Animal and Plant Health (CONESA - Conselho Estadual de Sanidade Agropecuária) and to the Public Finance Court of the State, within legal form and deadlines.

Article 13. Compensation payable with resources of the Health Guarantee Fund is limited to the net amount available, added to the sum of applications.

Article 14. SEAB, ADAPAR and FUNDEPEC/PR are responsible for the expenses incurred by their officials and employees in performing the actions referred to in this Resolution.

Article 15. The regulatory provisions in force at the time of the compensation claims that have been filed prior to the publication of this Resolution should be applied.

Article 16. Resolution no. 72, dated October 28, 2003, and Resolution no. 83, dated May 26, 2009 are revoked.

Article 17. This Normative Instruction shall come into force on the date of its publication. To be published.

To be complied with.
